

REVIEW

on the Educational and Professional Programme "Agronomy" of the first (Bachelor's) level of higher education (Bachelor) in speciality 201 Agronomy, field of knowledge 20 Agrarian sciences and food of Central Ukrainian National Technical University

Ukraine is a leading agro-industrial country and is a leader in the supply of major grains, pulses and industrial crops on the global market. Kirovohrad region is one of the leading agricultural regions of Ukraine. The region is provided with specialist agronomists, mainly graduates of the Department of Geoponics of Central Ukrainian National Technical University, which facilitates scientifically sound crop production taking into account the specifics of the zone and helps to obtain the highest possible environmentally friendly crop yields.

Bachelors in speciality 201 Agronomy are trained on the basis of the first (Bachelor's) level of higher education, which is created in accordance with the Higher Education Standard of Ukraine on the training of relevant higher education specialists.

The EPP is framed logically and provides for the gradual accumulation of knowledge for higher education students, both general education components and subjects that form professional competencies, which allows them to fully study agronomic subjects and consolidate the acquired knowledge in practice in agricultural enterprises of the region.

It is important to note that some of the courses taught are chosen by the students themselves, which contributes to the formation of higher quality indicators in the specialists of speciality 201 Agronomy.

The department has formed several scientific societies, which include lectures by producers and scientists, which helps to broaden the applicants' horizons in the professional field.

The EPP ensures the formation of high-quality specialists in the speciality 201 Agronomy, that correspond to the programmes of the first (Bachelor's) level of education, and also contribute to the full formation of general and professional competencies in higher education students.
